- r1 6sc in magic ring (6)
- r2-6 sc around (6)

Assembly

Sew the body to the head.

Sew the horns on top of the head.

I used wire to make his limbs and tail posable

For his hair-flames, I used an interesting technique I found here:

<http://sols-crew.tumblr.com/post/43975156663/tutorial-making-a-brushed-yarn-wig>

Rather than wefts, just attach yarn with the latch hook method, around his horns and tail end. (I attached 2 plies at a time.) Then split the yarn into individual plies, comb it out a little, and take a hair straightener or iron to it.

She explains it in a lot more detail, so check it out!

Before splitting

After straightening

Trim his hair, embroider a little smile, and he's all done!
