## Helpful Notes!

•You will make a couple oval shapes. Here's a good roundup of different shapes for more help  
<http://www.mooglyblog.com/how-to-make-5-basic-crochet-shapes-free-patterns-and-links/>

•While the wool-ease colors were perfect, it's really hard to work with. I found it too soft and frizzy for amigurumi.

# Assembly

---

- Sew the snout on the face, below and between the eyes. Attach nose and stuff just before closing it off.
- Embroider a little smile. I like to use yarn split in half for embroidering.
- Sew the ears on both sides. Use a couple hidden stitches to tack them down so they don't flap around.
- Sew the tail on her rump, just like the ears.
- Stuff and sew the legs under the body. The front legs are roughly at r12-r16. The back legs are roughly r33-r37. About 4 visible stitches between each pair of legs.
- Sew the crown on top of her head, right between the ears.

*...she smells like hotdog water*
